SUMMARY

Aspiring Data Scientist with 1.5 years of experience in project management, pricing operations, and data coordination within the market research industry. Skilled in Python, SQL, Machine Learning, Power BI, Azure, and data analysis with hands-on experience building predictive models and business intelligence dashboards. Strong analytical, problem-solving, and stakeholder communication skills with a passion for transforming data into actionable business insights.

EDUCATION

JIM, Dr. A.P.J. Abdul Kalam Technical University (AKTU), Kanpur

Master of Computer Applications (MCA)

2022 – 2024

Chhatrapati Shahu Ji Maharaj University (CSJMU), Kanpur

Bachelor of Science (B.Sc.)

2018 – 2021

EXPERIENCE

Project Manager / Pricing Operations Coordinator

January 2023 – Present

Market Research Industry

Kanpur, India

- Analyzed project metrics including Incidence Rate (IR) and Length of Interview (LOI) to perform data-driven pricing analysis for survey projects.
- Evaluated vendor costs against project benchmarks and recommended pricing adjustments to support profitability and cost accuracy.
- Validated and maintained finalized project cost data within Sugar CRM, ensuring data quality across multiple concurrent projects before proposal closure and invoice processing.
- Collaborated with Client Services teams to communicate pricing analysis and finalized project costs, supporting timely proposal completion and invoicing.
- Coordinated cross-functional stakeholders to ensure smooth execution of pricing operations and project delivery.

PROJECTS

House Price Prediction | Technologies: Python, Scikit-learn, XGBoost

- Developed regression models using Linear Regression, Random Forest, and XGBoost.
- Performed feature engineering and hyperparameter tuning.
- Evaluated model performance using RMSE and R^2 , with XGBoost delivering the best results.

Sales Performance Dashboard | Technologies: Excel, Power BI

- Built an interactive dashboard to monitor revenue, profit, and regional sales performance.
- Cleaned and transformed raw data using Power Query.
- Created visualizations to support business decision-making and regional performance analysis.

Pizza Sales Analysis | Technologies: MySQL, SQL

- Performed SQL-based sales analysis using CTEs, window functions, joins, and subqueries.
- Identified top-selling products, low-performing items, and peak sales periods.
- Generated business insights to support inventory and marketing decisions.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Machine Learning: Scikit-learn, XGBoost, Random Forest, Linear Regression

Data Analysis: Pandas, NumPy, Exploratory Data Analysis (EDA), Feature Engineering, Statistical Analysis

Data Visualization: Power BI, Tableau, Matplotlib, Seaborn, Microsoft Excel (Pivot Tables, Charts)

Databases: MySQL, MongoDB

Cloud: Azure Data Factory, Azure Databricks, Azure Data Lake, Azure Blob Storage

Tools: Git, VS Code, Jupyter Notebook, Sugar CRM

CERTIFICATIONS NOTE

No certifications listed in the provided resume.

SUGGESTED ADDITIONS (DO NOT ADD UNLESS EARNED)
